Industry*   Client URL

City / Town   State / Province / Region*

Zip / Postal code   Country*

Project information

What were the project goals? What did the client want the end result to achieve?*

What challenges did you encounter when trying to design the project in the most sustainable way possible? How did you overcome those challenges?*

Evaluate project outcomes. Which aspect of the project met the client's needs while having the greatest positive impacts on environmental, societal, cultural and economic sustainability?* What would you have done differently?

For Print, Packaging or Environmental Graphics project components

What is the major material(s) component of the project?

Compostable biodegradable resins   Plastic

Regional agri-fiber or agricultural residue   Metal

Tree Fiber

Other

Please provide details (brand, type of metal or plastic, agri-fiber variety, PCW, etc.)

What environmental/social certifications did the materials have?

Ancient Forest Friendly (AFF)   Forest Stewardship Council (FSC)

Rainforest Friendly   Chlorine Free

Cradle to Cradle   Green Seal

EcoLogo   Green-e

EcoLabel (EU)   Blue Angel

Business for Social Responsibility (BSR)   B Corporation

China Environmental Labeling Program   Green Certification Korea

Other

If you had more than one print piece with different certifications please specify those details below:

Please list your paper/substrate and ink/adhesive choices and connected specifications.
(including PCW, recycled content, weights, finish, alternative fibers, etc.)

Please explain how you designed your piece to use minimal materials, and/or intentional reuse, and/or easily disassembled, and/or compostability.

Printing company   Printing company location

Printing company URL

Does the printing company hold any of the following environmental/social certifications?

Forest Stewardship Council (FSC)   Green-e

Business for Social Responsibility (BSR)   B Corporation

LEED   Better Business Bureau (BBB)

Carbon Neutral   Sustainable Green Printing Partnership (SGP)

Certified Green Business   EPA Green Power Partner

Other(s)

For Digital Project components

Project URL:

Does the server farm, hosting facility or provider hold any of the following environment/social certifications?

EPA Green Power Partner   Green-e

LEED   Business for Social Responsibility (BSR)

B Corporation   100% Wind Power

EPEAT   WaterSense

Other(s)

If you had more than one digital component with different certifications please specify those details below:

Does the project meet accessibility guidelines as set forth by the W3C where applicable?

Using ecograder.com, please submit your score:

Yes   No

Project images

We're looking for images of your process such as project sketches, notes, ideations, mock-ups as well as final project images.

Please send us 4-8 JPGs of the project: 1160px x 650px at 72dpi.
For UI/UX projects, please send screenshots or mockups.

Thank you for submitting your case study!
